

SYED TALHA AHMAD

talha2007ahmad@gmail.com | +92-3214462311

PROFILE

Aspiring Mechanical Engineer with hands-on experience in 3D design, embedded systems, and prototyping. Passionate about building functional devices, exploring space technologies, and solving real-world problems. Strong problem-solving, teamwork, and communication skills, with a proven ability to quickly learn new concepts.

WORK EXPERIENCE

Intern – HAWK Flying, Lahore

Assisted in RC aircraft assembly and flight control systems

Intern – Alternative Energy Technologies, Lahore (Part-time, Aug 2019 – Aug 2021)

- Designed a 3-axis motion simulator model using Creo
- Assisted in the development of electrical systems for a COVID-19 sanitization entry gate

PROJECTS

Child Tracking Phone (ESP32-based)

- Developed a GPS-tracked device with clock and 2 mini-games
- Integrated GSM module for real-time communication
- Full hardware and software implementation

DIY Game Controller

- Built a custom controller using microcontroller, dual joysticks, and 8-button modules

- Programmed input handling and hardware interfacing

Personal Engineering Projects

- Built multiple Arduino/ESP32 gadgets with sensors and automation
- Developed rapid prototypes of mechanical devices
- Explored electronics, circuit design, and embedded programming

CERTIFICATIONS & COURSES

- **Unity 3D Game Development** – ID Tech (Virtual Tech Camp, USA)
- **SolidWorks Course** – PITAC Lahore
- Filmmaking Course – ITU Lahore
- New Media Workshop – Human Movie Team, PakTurk-Maarif

SKILLS

Engineering & Technical: 3D Design (Creo, SolidWorks, Blender), Rapid Prototyping, Mechanical Design, Electronics (Arduino/ESP32, sensors)

Programming: C++ (Arduino), Python, Java (Basic)

Creative Tools: Adobe Premiere Pro, Photoshop

Key Strengths: Quick learner, adaptable, creative problem solver, strong teamwork & communication

LEADERSHIP & ACTIVITIES

LACAS Model United Nations (2022) – Represented Germany

- Developed public speaking, negotiation, and critical thinking skills

EDUCATION

O Levels (GCSE Equivalent) – Completed May 2025

Key Subjects: Physics, Chemistry, Mathematics, Computer Science

Hifz-e-Quran – Completed May 2020

LANGUAGES

- English – Fluent
- Urdu – Native
- Japanese – Basic (Self-learned)

INTERESTS

- Mechanical Engineering & Space Technologies
- Embedded Systems, Electronics & Smart Devices
- Building tech projects and entrepreneurship
